

## Datasheet for: 112616

**End distributor, Input G 3/4, Connection 1 x G 1/2**

End distributor,, Input G 3/4, Connection 1 x G 1/2, operat.pressure (air/water) max. 15 bar, ambient temp. 1 °C to 50 °C. Made of plastic PA6 GF 30. End and through distributor sockets made of high strength, glass fibre reinforced plastic (PA6 GF 30) with large range of applications. Optionally 1 or up to 3 connection options as well as 2 thread sizes for internal and external threads (cannot be combined). For vertical carrying of media. Universal distributor socket with up to 5 connection options. Suitable for vertical and/or horizontal carrying of media or the secure connection (avoidance of existing components) of pressure reducer or maintenance device, for example. All distributor sockets have a durable brass threaded insert, whose shape secures it against rotation and against axial shift due to its shape. Suitable for media compressed air (ambient temperature -10 °C to 50 °C) or water (ambient temperature 1 °C to 50 °C). Drilling diagram dimensions are identical for all distributor sockets, so a simpler and more flexible exchange between end, through and universal distributor sockets is ensured. Caution: Note that the distributor sockets should not be installed in danger zones. Danger zones are, for example, transport routes, escape routes, etc.

Type number	EVD34-1
Article number	112616
EAN/barcode	 4047322401555
Your price	33,48 € / Stk
