

## Datasheet for: 106698

**End plate for valve terminal HDM, Blind (to close off the system)**

End plate for valve terminal HDM, Blind (to close off the system), Temp. -10 °C to 60 °C . These compact valve terminals, with a maximum flow rate of 800 NI/min, can be individually adapted to the specific conditions of each application thanks to the wide range of functions and various input and intermediate plates. Since each valve terminal is a customer-specific combination of a series of individual elements, the catalogue only lists the available input, intermediate and end plates as well as the different valve discs and the 25-pin multi-pole connectors. Suitable for filtered, unlubricated or lubricated compressed air. If lubrication is used, it must be continuous. Monostable (non-latching) version of manual control also available on request. The operating pressure is based on the installed input plates.

Type number	5
Article number	106698
EAN/barcode	 4047322286824
Your price	31,04 € / Stk

**Minimum order quantity**

Price Unit	1
Quantity Unit	Stk
Packaging Unit	1
Content	1 Stk
Minimum order quantity	1

**Productdata**

Function	Blind (terminates the system)
Manual control	latching
Max. temperature range	60 °C
Min. temperature range	-10 °C
Page No.	HK484
Piloting	Max. 16 (e.g. 16 spring return valves)
Power input	0.6 W per pilot
Protection IP	IP 65
