

Datasheet for: 107277

End distributor socket, G 3/4, 2 stand. Coupl. I.D. 7.2, max. 15bar

End distributor socket, with 2 standard couplings I.D. 7.2, input G 3/4, Operat. pressure max. 15bar, Ambient temp. -10°C to 50°C. 2 or 3-way distributor sockets made of high-strength glass fibre-reinforced plastic (PA6 GF 30) for a wide range of applications. Available with 2 or 3 pre-assembled, brass quick disconnect couplings and 2 inlet thread sizes for input and output threads (Not combinable). All distributor sockets have a durable brass threaded insert, whose shape secures it against rotation and against axial shift due to its shape. Drilling diagram dimensions are identical for all distributor sockets, so a simpler and more flexible exchange replacement. Caution: Note that the distributor sockets should not be installed in danger zones. Danger zones are, for example, transport routes, escape routes, etc.
