Special filter »Standard« Protective cage, 0.01 μm , Size 1, G 3/8

Special filter »Standard« with polycarbonate container and protective cage, 0.01 μm , Size 1, G 3/8, Input pressure max. 16 bar . For all applications with particularly strict compressed air purity requirements. The separating efficiency of these filters permits very fine oil vapour particles and micro-fine suspended particles to be filtered. A standard filter should always be connected upstream to trap coarse impurities and protect the micro-filter inserts.
