

Accessories

Pressure Gauge In-Line Filters Model 910.22

WIKA Data Sheet AC 09.10

Applications

- For mounting to pressure gauges in dirt-sensitive hydraulic and pneumatic systems
- To filter out solid substances from gaseous and liquid media (retention of particulates)

Special Features

- They avoid:
 - Plugging of small gauge pressure entries and capillary throttles
 - Accumulation of particles in dirt-sensitive gauge interiors and its consequences
- Furthermore they have an effect of a throttle and damp shock pressure

Pressure Gauge In-Line Filters, Model 910.22

Description

Filter body

Stainless steel 1.4571

Filter disk

Stainless steel 1.4404

Grade of filtration

200 µm

Porosity

30 ... 50 %

Temperature range

-25 ... +200 °C

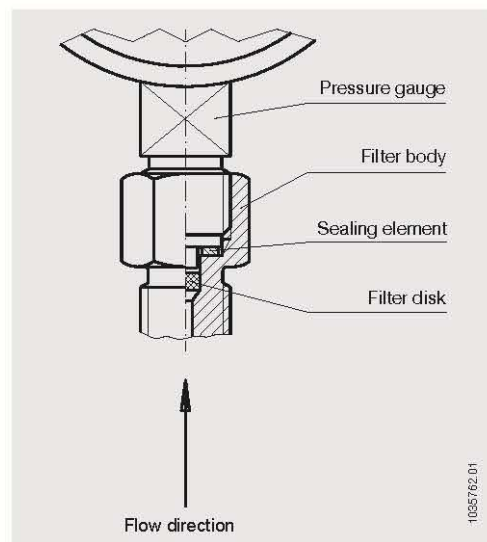

Operating pressure

depends on the sealing washer the customer uses

- Sealing element PTFE: PN max. 100 bar
- Sealing element stainless steel 1.4571: PN max. 1600 bar

Process connection

Male and female thread per EN 837-1
or male thread NPT

WIKA Data Sheet AC 09.10 - 03/2008
