

## Datasheet for: 100330

### Differential pressure flow meter »FUTURA«, Size 2, 200-5000 L/min

Differential pressure flow meter »FUTURA«, Size 2, Measurement range 200 - 5000 L/min, Operating pressure - 16 bar. Differential pressure measuring system for detecting changes in flow rate or consumption and measuring energy efficiency. There is a differential pressure at the sensor as soon as a fluid starts to flow. Fast and accurate measurements can be achieved in this way. This robust instrument in a modern design offers a high level of safety (codable) and requires no maintenance. Accessories: Wall bracket or alternative a mounting bracket for wall mounting as a component of the »FUTURA« service unit. Wall brackets with a connection thread for mounting to an existing compressed air system. Joiner set for easy adaptation as a component of the »FUTURA« service unit. Adapter plates for adapting different »FUTURA« service unit sizes.
