

## Magnetic sweepers

SVMZ-N-304x99-2000-Z-F1M

SKU: SEMV200020

## Product Features

|                                       |                                                                                |
|---------------------------------------|--------------------------------------------------------------------------------|
| <b>Description</b>                    | Magnetic sweeper                                                               |
| <b>SKU</b>                            | SEMV200020                                                                     |
| <b>Product key</b>                    | SVMZ-N-304x99-2000-Z-F1M                                                       |
| <b>Type</b>                           | Forklift magnet                                                                |
| <b>Including</b>                      | Forklift interface                                                             |
| <b>Cleaning/Fe-particles disposal</b> | Manual quick cleaning, by sweeping away the separation plate                   |
| <b>Surface treatment/finishing</b>    | Painted (magnet), Grit blasted / painted (housing)                             |
| <b>Colour</b>                         | Dark grey (Umbra grey): RAL7022 (housing), Red (Traffic red): RAL3020 (magnet) |
| <b>Magnet width</b>                   | 2000 mm                                                                        |
| <b>Magnetic system</b>                | Permanent ferrite magnet                                                       |
| <b>Width</b>                          | 2170 mm                                                                        |
| <b>Height</b>                         | 267 mm                                                                         |
| <b>Weight</b>                         | 394 kg                                                                         |
| <b>Depth</b>                          | 686 mm                                                                         |
